Everyone following a pathway to their own success, as Explorers, Discoverers and Adventurers.

Our curriculum is centred around the child. Age and stage should be carefully considered in all areas of the curriculum.

Important considerations must be made in the introduction of a new Curriculum, where there may be gaps in learning within earlier phases. These gaps should be filled, where not repeated within the spiral curriculum. However, this should not be at the disregard of physical development or dismissing essential learning to keep young people safe.

Warren Cycle of Assessment for Learning
